March 29, 2007

To whom it may concern,

March 23rd through the 25th, Judge Roy Moore, former Chief Justice of the State of Alabama, visited the city of Longview, Texas to present a Pastor's Seminar entitled *Project Jeremiah*. The focus of the seminar is to remind all of us of the direct connection between God and the United States of America. Judge Moore presented, to those attending the session, irrefutable evidence that this country was founded on the concept and mandate to be and remain one Nation under God. Great detail and facts were presented to substantiate that the "One God" is, was and will always be Jehovah, the God of the Bible, also referred to as the "Creator of All". The seminar was inspirational, informative and challenged all of us to standup for what our forefathers stood for and intended for us as a nation from the very beginning.

Sunday morning we were honored to have Judge Moore and his team visit Longview Metro Church and present *Project Jeremiah* to our congregation. Judge Moore was used mightily of God to stir, challenge and call us into accountability for the Biblical Foundation of America. This message was shared with the largest attendance to date at Longview Metro Church and was also aired on the church's television broadcast. Longview Metro Church was honored to be the first church to be chosen to receive this project.

In His Service,

Rob Parsons
Senior Pastor
Longview Metro Church
